Cuando le indiquen que puede empezar, dispondrá de 4 minutos para leer las preguntas antes de comenzar a escuchar el primer ejercicio. Escuchará el primer ejercicio tres veces, con una breve pausa entre cada repetición. Después dispondrá de 2 minutos para leer, o releer, las preguntas del segundo ejercicio. Escuchará el segundo ejercicio tres veces, con una breve pausa entre cada repetición. A continuación dispondrá de 2 minutos para leer, o releer, las preguntas del tercer ejercicio. Escuchará el tercer ejercicio tres veces, con una breve pausa entre cada repetición.

Dispondrá de unos minutos para revisar sus respuestas y asegurarse de haber respondido en la HOJA DE RESPUESTAS. Las tareas o preguntas serán del siguiente tipo:

Si se confunde, tache la respuesta equivocada y rodee la opción que crea verdadera.

1 TRUE FALSE

En total, deberá contestar a 25 preguntas. Cada una de ellas vale 0,4 puntos sobre un total de 10. La calificación se obtendrá al multiplicar el número de respuestas correctas por 0,4 expresando el resultado con un decimal. Antes de responder a las preguntas, lea atentamente las instrucciones de cada ejercicio.

Dispone de 40 minutos para responder todas las preguntas de los ejercicios que componen la prueba.

Utilice únicamente bolígrafo azul o negro y asegúrese de que su teléfono móvil y dispositivos electrónicos estén desconectados durante toda la prueba.

TASK 1

BETTA FISH

Betta fish are known for their bright colors. They are popular with Americans as pets. They are often kept alone in a small tank. 0. Male fish are prized for their stronger colors and beautiful fins.

With good care, bettas live three to five years, but some are known to live 10 years. In the northern parts of the world, winter has arrived, and some people might be wondering what to do with their time now that they are indoors. Keeping a betta fish can be 1. a fun hobby that does not involve going outside. It also does not require too much skill, but you do have to be willing to learn.

But how do you take care of a betta fish?

Required parts

First, betta fish need a home. A tank that holds at least 11 liters of water is suggested although 2. 19 liters is better. Larger tanks are better because the water needs to be changed less often and provides a healthier environment for the fish.

Second, 3. the tank needs small rocks or sand at the bottom. In the pet fish industry this is called 4. substrate. A few centimeters at the bottom are all that is needed. Clean the rocks or sand with running water without soap until it runs clear before adding them to the tank.

Third, a filter is needed to purify the water. Many people keep bettas without filters. But 5. the fish should be raised with a filter to stay healthy. Follow the filter's guidelines and choose a filter that is the right size for the tank.

Fourth, a heater is suggested to keep your fish in good condition. 6. These fish prefer warmer water, usually between 24 and 28 degrees Celsius. Pet stores sell heaters for fish. Choose the right size for your aquarium and follow its guidelines, or instructions, to set it up.

A light and decorations are the final details to set up your tank. A light may not be necessary if the room receives enough natural light. But an electric light might be helpful if you wish to grow plants in the tank. If real plants seem like too much work, 7. plastic plants work as well. You can also find other decorations like rocks, or wood pieces. Just make sure they are safe for fish.

Water quality and temperature

The quality of the water is important to keeping a fish alive and healthy. The filter and heater will do a lot to keep the water safe for the fish, but there are additional steps you should take.

Make sure the water you add to the tank is safe for fish. Tap water can be used. But it usually contains a chlorine-based chemical harmful to fish, so **8. additional steps need to be taken.**

TASK 3

WORK LIFE BALANCE

One of the things that I have come to admire and like the most about France is the work life balance that has been established here; **0. it's very normal for people to have between 4 to 8 weeks off per year, and in the U.S., this is completely unheard of.** I've met a lot of people **21. in France who are young professionals, and this is totally normal to them,** but **22. a lot of my friends back home are just starting their careers,** their jobs, and **even older people** that I know, most of them **only have two weeks off** per year and some of them don't even get to choose when those weeks are throughout the year, for example, **23. their company will choose** that you have one week off in October and one week off in March and they choose **when those weeks are.** **24. It is a wonderful thing to me that in France leisure time is much more valued** and appreciated and when you are on vacation you are on vacation; **25. you're not expected to check your e-mail** and respond and do some work on the side or on the weekends; **in the United states this is very common,** especially for young people who are just like getting started in their careers.
