**Read the instructions carefully and write a Whatsapp message of 40-50 words.**

Your friend Peter has done some online shopping and has been stolen some money. He doesn't know how that could happen and has asked you for help. You have done some research about safe online shopping, and you found the text below. Send Peter a Whatsapp message **summarising** the main ideas in your own words.

### **How to shop online safely**

Online shopping is quick and easy and can be done from anywhere with an internet connection. But it has risks like hackers trying to steal your money. Thankfully, if you follow a few simple rules, your shopping experience will be safe.

First, try not to use public Wi-Fi because you can compromise your personal data. Research is the key; this way you can know if sellers and websites are secure. It is also important to keep your software and virus protection up to date. Finally, pay using a credit card; it is safer, and hackers can't access your bank details.
