

## DESIGNER BABIES: THE FUTURE OF SCIENCE

Nowadays science has made it possible for humans to carry out genetic modifications in embryos and it seems that further developments will open new possibilities in the future.

- Are there any cases in which you think designing a baby could be positive?
- Can you think of any drawbacks of this scientific development?
- Should parents be allowed to choose the sex or certain characteristics of their children?

## THE IMPORTANCE OF GRAMMAR

### STUDENT A

“The most important ingredient of learning English is Grammar”.

Discuss the statement above with your partner(s) and give your personal opinion on the topic.

Use some of the ideas below to help you present your point of view:

- Mistakes reflect poor learning.
- The best language teachers are native speakers.
- Communication is possible even when we make mistakes.
- Good English means grammatically correct English.

**You** start the conversation.

## THE IMPORTANCE OF GRAMMAR

### STUDENT B

“The most important ingredient of learning English is Grammar”.

Discuss the statement above with your partner(s) and give your personal opinion on the topic.

Use some of the ideas below to help you present your point of view:

- Mistakes reflect poor learning.
- The best language teachers are native speakers.
- Communication is possible even when we make mistakes.
